

As a Contract Research Organization (CRO), Phaze prioritizes data protection and privacy, aligning all internal processes with the General Data Protection Regulation (GDPR) requirements.

Phaze is committed to ensuring the confidentiality, integrity, and availability of personal data entrusted to us during clinical research activities.

Phaze's policies and procedures adhere to GDPR Article 32, guaranteeing robust measures for data security and resilience.

Phaze's compliance strategy includes secure data processing and storage systems, data minimization/pseudonymization/encryption (as applicable), and strict access controls.

Furthermore, Phaze implemented comprehensive training programs for the staff and collaborate with clients & 3rd party vendor partners, to ensure data protection practices meet regulatory standards.

This approach reinforces Phaze's commitment to safeguarding sensitive data and supporting our clients' GDPR compliance in all phases of clinical research.
